WATER OUTAGE INFORMATION

As a result of comments in the Voyager Voices Facebook group following the most recent water outage, about 50 Voyager residents met informally with General Manager Geoffrey Campbell on December 7 to discuss the current water situation. The original infrastructure plans are not available, so licensed and vetted professionals have been hired to find the underground valves and determine if there are leaks. There is sometimes a delay in fixing emergency leaks because the equipment needed comes from Phoenix. Improvements to communicating water outage information such as updating resident contact info, and the possibility of bringing in portable toilets and fresh water trucks was discussed. Kathy Borchers has agreed to be water issue liaison for residents and will meet with Geoffrey as needed. Suggestions/questions/concerns should be sent to Kathy at kathyborchers@gmail.com or on Facebook. Complete minutes of the December 7 meeting are available from Kathy.
